

## Goals for writing my second draft

- Pay attention to scenes/moments that move the narrative forward
- To provide specific sensory details for any general phrases or sentences
- To show, not tell
- To use action verbs instead of passive verbs
- To use dialogue for a purpose (to move the action forward, show characterization, establish context, etc.)
- To make other effective grammatical choices

## Second draft of personal narrative

Write your second draft, incorporate suggestions and ideas from your partner's letter.
